PATIENT & OFFICE STAFF: EXAM PREPARATION INSTRUCTIONS **QUESTIONS? CALL (678) 924-0964**

PREPARATION INSTRUCTIONS FOR ADULT PATIENTS

Please call (678) 924-0964 for pediatric patient instructions or additional questions. Diabetic patients and those with special needs should call before scheduling.

ULTRASOUND

Most ultrasoundsrequire no preparation. Only the procedures below have specific requirements.

Pelvic or Obstetric:

- Female patients must drink six glasses of water one hour before the exam and should not urinate. The bladder must be full for the examination.

Gallbladder / Abdomen:

- Eat a fat-free dinner the day before your exam (lean meats, fresh vegetables, toast or bread). Do NOT eat eggs, butter, or fried foods.
- Do not eat or drink anything after midnight the night before your exam.
- Do not eat or drink anything the day of your exam until after your procedure is complete.

CT SCAN

★ **All CT studies at Georgia Health Imaging are non-contrast only. No IV or oral contrast agents are administered.**

Abdomen / Pelvis:

- Do not eat or drink anything four hours prior to your exam.

All Other CT Studies:

- No special preparation required.
- Wear comfortable clothing without metal fasteners near the area being scanned.
- Bring any prior imaging on disc if available.

MRI

★ **All MRI studies at Georgia Health Imaging are non-contrast only. No gadolinium or other contrast agents are administered.**

Before your exam, please notify us if you have any of the following:

- Pacemaker or implantable cardiac device (ICD)
- Aneurysm clips
- Metal fragments or shrapnel
- Cochlear implants
- Joint replacements, surgical hardware (pins, rods, screws)
- Insulin pump or neurostimulator
- Any other metal implants or medical devices
- Body art near scan area (piercings, metallic tattoos)

Complete your MRI Safety Screening Form online before your appointment:
Visit **www.gahealthimaging.com/patients/forms** or ask our front desk upon arrival.
Please arrive **15 minutes early** if completing forms on-site.

ECHOCARDIOGRAM

- No fastingrequired forastandard transthoracic echocardiogram.
- Wear a comfortable two-piece outfit so the technologist can access your chest area.
- Bring a current list of your cardiac medications.

X-RAY

- No special preparation required.
- Wear comfortable clothing; you may be asked to change into a gown.
- Remove metal objects (jewelry, belts, piercings) near the area being imaged.
